Dental Center

Limited Dental Warranty

Here at Louisiana Dental Center we are proud of the dentistry that we provide for you. Our goal is to provide excellent, cost effective dental care to anyone seeking treatment. We want to not only correct your dental problems, but teach you how to prevent dental disease with regular follow ups. These visits could be any where from 2, 3, 4, or 6 months apart depending on your oral health. With that in mind we offer the following limited dental warranties.

Dental Sealants

Sealants are safe durable acrylic coatings placed on the chewing surface of the teeth to prevent decay in the pits and grooves of the teeth, the most common area to get cavities. Floss and the use of fluoride will help prevent decay between the teeth. We will repair or replace lost sealants for a period of 3 years after placement.

Composite Fillings

If a “tooth colored” restoration is the recommended treatment of choice, we will replace or repair it in the event of failure for a period of 1 year. If the tooth breaks and requires a

crown, we will credit the cost of the filling towards the crown.

Root Canals

Root Canal treatment is highly successful –96%. If a tooth is lost within 1 year, we will refund the root canal fee, or apply it as a credit towards a replacement tooth.

Crowns and Bridges

We will warranty these most comprehensive procedures for a full 3 years. We will replace or repair them at no charge during this 3 year period if they break. (This does not include accidents that could also break normal healthy teeth).

Dentures and Partials

We will warranty dentures and partials for breaking, chipping, or tooth loss under normal use for a period of 2 years. If the tooth chips or breaks, or a flange breaks under normal use we will repair or remake the denture or partial. This warranty does not cover accidents such as dropping your denture. This warranty does not apply to immediate or transitional dentures. Full upper and lower denture patient must be seen once every 12 months. Patients with some of their own natural teeth must be seen at the prescribed recall appointment or this warranty is null and void.

Note

As you can see, we are confident of the durability of our treatment as prescribed for you. The primary key to your long term success is spending a few minutes a day on your home care, brushing, flossing, fluoride and prescribed products. The second key to success is regular professional examinations, cleaning, X-ray films and fluoride treatment (2, 3, 4, & 6 month intervals depending on your condition). This warranty does not cover accidents or conditions outside of normal usage that cause damage to the teeth, or dental prosthesis. **FAILURE TO HAVE THESE REGULAR VISITS AT LEAST EVERY 6 MONTHS WITH OUR OFFICES VOIDS ALL WARRANTIES.** Help us to help you maintain your teeth for a lifetime.
